<b>Sustaining Tfm</b>	All schools stay within this phase which establishes a supportive and vibrant community to continue and further develop teaching for mastery approaches. The focus is to enable schools to continue to reflect upon and develop approaches whilst also giving participants support and professional challenge.  We offer a variety of pathways, including Developing Coherence, Developing Mathematical Thinking and Developing curriculum assessment. It is also a great opportunity to share good practice!	<b>Secondary MAT Maths Leaders Community</b>  <a href="#" style="background-color: #5da5da; color: white; padding: 5px; border-radius: 10px; display: inline-block;">Book your space</a>	
Teaching for Mastery Workgroups are designed and delivered by the Origin Maths Hub NCETM Primary Mastery Specialist Team. Workgroup design is in line with the NCETM National Outcomes.		These programmes can be used at any time, alongside the standard offer. Successful Sustaining schools have used these to their advantage at various points along their pathway.	
		All SKTM programmes are delivered by a member of the LLME. (Local Leaders of Mathematics Education)
